AI Analysis Summary

You've done well using semantic elements like `<main>` and clear heading levels to organize your content! To take it further, consider refining your use of `<section>` elements for clearer content grouping and replacing empty or unclear sections with more meaningful elements.

Priority recommendations:

1 Replace nested `<section>` elements that do not represent standalone thematic groups with `<div>` or more appropriate elements to improve semantic clarity.

2 Add meaningful content or use a more suitable element (like `<figure>` with `<img>`) for the banner image section instead of an empty `<section>`.

3 Consider grouping status and publish date information in a more descriptive container (like `<aside>` or `<time>`) to better convey their meaning.

Issues   3

All (3)   **Error (0)**   **Warning (3)**   **Info (0)**

WARNING **Structure & Semantics** AI Detected 1 occurrence

Using multiple nested `<section>` elements without clear thematic grouping which reduces semantic clarity. This causes confusion for users and assistive technologies about content relationships.

```html
<section class="card">
    <section class="banner-img"></section>
    <section class="text-container">
        <p class="status text-size-5 text-extra-bold">Learning</p>
        <p class="publish-date text-size-5 text-medium">Published 21 Dec 2023</p>
        <h1 class="course-name text-size-2 text-extra-bold">HTML &amp; CSS foundations</h1
        <h2 class="course-explanation text-size-4 text-medium">These languages are the backbon
    </section>
    <section class="author-container">
        <img src="./blog-preview-card/blog-preview-card-main/assets/images/image-avatar.webp'
        <p class="author-name text-size-4 text-extra-bold">Blaze</p>
    </section>
</section>
```

LEARN HOW TO FIX THIS ISSUE

WARNING **Structure & Semantics** AI Detected 1 occurrence

The `<section>` with class `banner-img` is empty and lacks semantic content or alternative text. This causes confusion about its purpose and may hinder content understanding.

```html
<section class="banner-img"></section>
```

LEARN HOW TO FIX THIS ISSUE

WARNING **Structure & Semantics** AI Detected 1 occurrence

Using `<p>` elements for the status and publish date instead of more descriptive elements or grouping reduces semantic meaning. This causes less clear content structure for users and machines.

```html
<p class="status text-size-5 text-extra-bold">Learning</p>
<p class="publish-date text-size-5 text-medium">Published 21 Dec 2023</p>
```

Some issues shown above were detected by AI analysis and may require human review for accuracy. If you're unsure about any findings or need clarification, please reach out in the help channel on Discord for assistance.

Strengths   3

Structure & Semantics

Good use of <main> to identify the primary content area, helping users and search engines understand the page structure.

Structure & Semantics

Appropriate use of heading levels with <h1> for the main title and <h2> for supporting explanation, establishing a clear content hierarchy.

Structure & Semantics

Use of <img> with meaningful alt text for the author image improves content understanding and accessibility.
